INTRODUCTION

TO THE

SIXTH EDITION.

THE extension which has taken place in the Railway System during the last few years has necessarily involved extensive alterations and additions to this Work, which the Compiler has with much care embodied in the present Edition, rendering it, as a Book of Reference for the Railways of Great Britain, the most perfect and comprehensive of its kind yet published.

As a Standard Work it has passed already through Five Editions since the first issue in 1868, circulating generally in the Forwarding Departments of the Government and Public Offices, the Railway Companies, and the Mercantile and Wholesale Houses in London and the Country.

In its present revised and amended form the Compiler, with increased confidence in the practical usefulness of the Work, again recommends it to the favourable notice of the Railway and Commercial Community.

The additions referred to above are shown in the Addendum, commencing from page 390.

LONDON, *March*, 1874.

INTRODUCTION

SIXTH EDITION

The present edition of the *Principles of Political Economy* is the result of a revision of the fourth edition, which was published in 1848. The revision has been made in accordance with the suggestions of the numerous readers who have written to the author, and with the views of the Committee of the University of London, who have been consulted on the subject of the proposed alterations. The alterations are of a minor character, and consist chiefly in the correction of errors, and in the addition of a few new passages.

The *Principles of Political Economy* is a book which has been read by many generations of students, and has been the basis of many of the most important works in the history of political economy. It is a book which has been read by many generations of students, and has been the basis of many of the most important works in the history of political economy. It is a book which has been read by many generations of students, and has been the basis of many of the most important works in the history of political economy.

In the present edition, the author has endeavored to bring the work up to date, and to make it more accessible to the general reader. He has also endeavored to make it more complete, and to include all the most important subjects which have been treated in the history of political economy.

The author has also endeavored to make the work more interesting, and to include all the most important subjects which have been treated in the history of political economy.

INTRODUCTION.

RECOGNISING a want that has constantly been brought under his notice, the Compiler of "THE RAILWAY AND COMMERCIAL GAZETTEER" has endeavoured in the publication of this work to furnish in as concise and comprehensive a form as possible a Gazetteer, indicating directly

THE LOCATION OF EVERY PLACE IN GREAT BRITAIN;

its

LINE OF RAIL,
NEAREST STATION,
DISTANCE FROM STATION,

DISTANCE FROM LONDON,
POPULATION,
and the

"THROUGH RATE" ROUTES FOR PARCELS, GOODS, & MERCHANDISE, with other useful information respecting the conveyance and shipment of goods not given in any work hitherto published; and which he is induced to hope may prove essential to the forwarding departments of all Railway Companies, Government and Public Offices, Manufacturers and Traders, enabling them to overcome the difficulty experienced in determining between new and competing routes, and be of assistance in the despatch of goods to TOWNS AND PLACES OF THE SAME NAME, of which there are, as will be seen, a very large number.

In determining the CONVEYANCE the principle adopted has been to select those Lines only which have "THROUGH RATES" between London and the places named, preference being given, as a general rule, to the most direct Routes; for example—

NEWCASTLE-ON-TYNE	GREAT NORTHERN	"F." GROUP.
LIVERPOOL	LONDON & NORTH WESTERN	"A." GROUP.
SHEFFIELD	MIDLAND	"H." GROUP.

Each of the Railways, as shewn in the conveyance column, carry to those Towns, and the Public may therefore rely on possessing the most accurate and correct information to guide them in the selection of the best and cheapest mode of conveyance.

The fact of its containing upwards of ELEVEN THOUSAND more places than are given in the last CENSUS, and NINETEEN THOUSAND more than shown in the BRITISH POSTAL GUIDE is the best proof the Compiler of the work can adduce of its completeness, and he confidently recommends it to the Public as a Gazetteer to be thoroughly depended upon, the materials having been furnished by the Managers of the various Railways, through their several Station-Masters, whose position and local knowledge peculiarly fitted them for the duty of collecting such information.

The POPULATION is taken from the last census.

N.B.—The General Offices of **LEBEAU & Co.** being situated in **BOULOGNE-SUR-MER**, the public are particularly requested to address General Correspondence, Complaints, and Enquiries respecting Through Rates, &c., &c., to **BOULOGNE-SUR-MER**.

For Continental Agencies see following page.

INSTRUCTIONS FOR IMPORT TRAFFIC.

I. Bills of Lading made to Consignee's Order should be handed in due time, with full particulars and instructions, to **LEBEAU & Co.** 6, Billiter Street, E.C., London.

II. In order to ensure *Dispatch and Economy*, Goods from the Continent should be, when practicable, forwarded to

LEBEAU & Co.	Antwerp, Station; Boulogne-sur-mer, Station; Calais, Dunkirk,	Havre, Station, London direct, via Rotterdam, Antwerp,	Newhaven direct, via Dieppe, or Paris, Station.
-------------------------	--	---	--

as the case may be.

Advices and instructions, with full particulars respecting Insurance, Payment of Duty, Delivery, or reforwarding, should always be sent in due time to **LEBEAU & Co.**'s General Offices in Boulogne-sur-mer, whence instructions will be issued to their various Agencies.

III. The most economical manner of forwarding Goods from the interior of the Continent, is generally, for Senders, to deliver them direct to the Railway Companies themselves, but **LEBEAU & Co.** beg to remind the Public that, in order that the Goods may be charged at the reduced rates of certain *Special, Export, Through, or Transit Tariffs*, it is a general rule on the Continent that Senders should, on their declaration to the Railway Companies, request these Companies to charge the rates of such Tariffs, otherwise the Goods are charged at the general Rates, which are much higher; it is therefore necessary that Senders should strictly comply with this regulation, as otherwise **LEBEAU & Co.** cannot charge their lowest Through Rates.

Under these circumstances, the best plan will always be for Senders or Consignees to apply to **LEBEAU & Co.**, Boulogne-sur-mer, who will furnish them with any information they may require on the subject.

The following are the names of Agents on the Continent with whom **LEBEAU & Co.** are in correspondence, and to whom Senders may apply if they wish to use the medium of an Agent. They will, on moderate terms, collect the Goods and make the declaration required by the Railway Companies and by the Customs.
